THE LAW OF ONE, BOOK IV, SESSION 90 JUNE 19, 1982

Ra: I am Ra. I greet you in the love and in the light of the one infinite Creator. We communicate now.

Questioner: Could you first please give me the condition of the instrument?

Ra: I am Ra. The physical complex energy deficit is somewhat increased by continued distortions towards pain. The vital energy levels are as previously stated, having fluctuated slightly between askings.

Questioner: Could you tell me the situation with respect to our fourth and fifth-density companions at this time?

Ra: I am Ra. The fourth-density league of companions accompanies your group. The fifth-density friend, at this space/time nexus, works within its own density exclusively.

Questioner: By what means do these particular fourth-density entities get from their origin to our position?

Ra: I am Ra. The mechanism of calling has been previously explored. When a distortion which may be negatively connotated is effected, this calling occurs. In addition, the light of which we have spoken, emanating from attempts to be of service to others in a fairly clear and lucid sense, is another type of calling in that it represents that which requires balance by temptation. Thirdly, there have been certain avenues into the mind/body/spirit complexes of this group which have been made available by your fifth-density friend.

Questioner: Actually, the question that I intended was how do they get here? By what means of moving do they get here?

Ra: I am Ra. In the mechanism of the calling the movement is as you would expect; that is, the entities are within your planetary influence and are, having come through the quarantine web, free to answer such calling.

The temptations are offered by those negative entities of what you would call your inner planes. These, shall we say, dark angels have been impressed by the service-to-self path offered by those which have come through quarantine from days of old and these entities, much like your angelic presences of the positive nature, are ready to move in thought within the inner planes of this planetary influence working from time/space to space/time.

The mechanism of the fifth-density entity is from density to density and is magical in nature. The fourth density, of itself, is not capable of building the highway into the energy web. However, it is capable of using that which has been left intact. These entities are, again, the Orion entities of fourth density.

Questioner: You stated previously that fifth-density entities bear a resemblance to those of us in third density on planet Earth but fourth density does not. Could you describe the fourth-density entities and tell me why they do not resemble us?

Ra: I am Ra. The description must be bated under the Law of Confusion. The cause for a variety of so-called physical vehicles is the remaining variety of heritages from second-density physical vehicular forms. The process of what you call physical evolution continues to hold sway into fourth density. Only when the ways of wisdom have begun to refine the power of what you may loosely call thought is the form of the physical complex manifestation more nearly under the direction of the consciousness.

Questioner: If the population of this planet presently looks similar to fifth-density entities I was wondering why this is? If I understand you correctly the process of evolution would normally be that of third density resembling that from which evolved in second density and refining it in fourth and then again in fifth density, becoming what the population of this looks like in the third density. It seems to me that this planet is ahead of itself by the way that its mind/body/spirit complex or body complex looks. What is the reason for this?

Ra: I am Ra. Your query is based upon a misconception. Do you wish us to comment or do you wish to requestion?

Questioner: Please comment on my misconception if that is possible.

Ra: I am Ra. In fifth density the manifestation of the physical complex is more and more under the control of the conscious mind complex. Therefore, the fifth-density entity may dissolve one manifestation and create another. Consequently, the choice of a fifth-density entity or complex of entities wishing to communicate with your peoples would be to resemble your peoples' physical-complex, chemical, yellow-ray vehicles.

Questioner: I see. Very roughly, if you were to move a third-density entity from some other planet to this planet, what percentage of all of those within the knowledge of Ra would look enough like entities of Earth so that they would go unnoticed in a crowd?

Ra: I am Ra. Perhaps five percent.

Questioner: Then there is an extreme variation in the form of the physical vehicle in third density in the universe. I assume that this is also true of fourth density. Is this correct?

Ra: I am Ra. This is so. We remind you that it is a great theoretical distance between demanding that the creatures of an infinite creation be unnoticeably similar to one's self and observing those signs which may be called human which denote the third-density characteristics of self-consciousness, the grouping into pairs, societal groups, and races, and the further characteristic means of using self-consciousness to refine and search for the meaning of the milieu.

Questioner: Within Ra's knowledge of the third-density physical forms, what percentage would be similar enough to this planet's physical forms that we would assume the entities to be human even though they were a bit different? This would have to be very rough because of my definition's being very rough.

Ra: I am Ra. This percentage is still small; perhaps thirteen to fifteen percent due to the capabilities of various second-density life forms to carry out each necessary function for third-density work. Thusly to be observed would be behavior indicating self-consciousness and purposeful interaction with a sentient ambiance about the entity rather than those characteristics which familiarly connote to your peoples the humanity of your third-density form.

Questioner: Now in this line of questioning I am trying to link to the creations of various Logoi and their original use of a system of archetypes in their creation and I apologize for a lack of efficiency in doing this, but I find this somewhat difficult. For this particular Logos in the beginning, prior to its creation of the first density, did the archetypical system which it had chosen include the forms that would evolve in third density or was this related to the archetypical concept at all?

Ra: I am Ra. The choice of form is prior to the formation of the archetypical mind. As the Logos creates Its plan for evolution, then the chosen form is invested.

Questioner: Was there a reason for choosing the forms that have evolved on this planet and, if so, what was it?

Ra: I am Ra. We are not entirely sure why our Logos and several neighboring Logoi of approximately the same space/time of flowering chose the bipedal, erect form of the second-density apes to invest. It has been our supposition, which we share with you as long as you are aware that this is mere opinion, that our

Logos was interested in, shall we say, further intensifying the veiling process by offering to the third-density form the near complete probability for the development of speech taking complete precedence over concept communication or telepathy. We also have the supposition that the so-called opposable thumb was looked upon as an excellent means of intensifying the veiling process so that rather than rediscovering the powers of the mind the third-density entity would, by the form of its physical manifestation, be drawn to the making, holding, and using of physical tools.

Questioner: I will guess that the system of archetypes then was devised to further extend these particular principles. Is this correct?

Ra: I am Ra. The phrasing is faulty. However, it is correct that the images of the archetypical mind are the children of the third-density physical manifestations of form of the Logos which has created the particular evolutionary opportunity.

Questioner: Now, as I understand it the archetypes are the biases of a very fundamental nature that, under free will, generate the experiences of each entity. Is this correct?

Ra: I am Ra. The archetypical mind is part of that mind which informs all experience. Please recall the definition of the archetypical mind as the repository of those refinements to the cosmic or all-mind made by this particular Logos and peculiar only to this Logos. Thus it may be seen as one of the roots of mind, not the deepest but certainly the most informative in some ways. The other root of mind to be recalled is that racial or planetary mind which also informs the conceptualizations of each entity to some degree.

Questioner: At what point in the evolutionary process does the archetypical mind first have effect upon the entity?

Ra: I am Ra. At the point at which an entity, either by accident or design, reflects an archetype, the archetypical mind resonates. Thusly random activation of the archetypical resonances begins almost immediately in third-density experience. The disciplined use of this tool of evolution comes far later in this process.

Questioner: What was the ultimate objective of this Logos in designing the archetypical mind as It did?

Ra: I am Ra. Each Logos desires to create a more eloquent expression of experience of the Creator by the Creator. The archetypical mind is intended to heighten this ability to express the Creator in patterns more like the fanned peacock's tail, each facet of the Creator vivid, upright, and shining with articulated beauty.

Questioner: Is Ra familiar with the archetypical mind of some other Logos that is not the same as the one we experience?

Ra: I am Ra. There are entities of Ra which have served as far Wanderers to those of another Logos. The experience has been one which staggers the intellectual and intuitive capacities, for each Logos sets up an experiment enough at variance from all others that the subtleties of the archetypical mind of another Logos are most murky to the resonating mind, body, and spirit complexes of this Logos.

Questioner: There seems to have been created by this Logos, to me anyway, a large percentage of entities whose distortion was towards warfare. There have been the Maldek and Mars experiences and now Earth. It seems that Venus was the exception to what we could almost call the rule of warfare. Is this correct and was this envisioned and planned into the construction of the archetypical mind, possibly not with respect to warfare as we have experienced it but as to the extreme action of polarization in consciousness?

Ra: I am Ra. It is correct that the Logos designed Its experiment to attempt to achieve the greatest possible opportunities for polarization in third density. It is incorrect that warfare of the types specific to your experiences was planned by the Logos. This form of expression of hostility is an interesting result which is apparently concomitant with the tool-making ability. The choice of the Logos to use the life-form with the grasping thumb is the decision to which this type of warfare may be traced.

Questioner: Then did our Logos hope to see generated a positive and negative harvest from each density up to the sixth, starting with the third, as being the most efficient form of generating experience known to It at the time of Its construction of this system of evolution?

Ra: I am Ra. Yes.

Questioner: Then built into the basis for the archetypes is possibly the mechanism for creating the polarization in consciousness for service to others and service to self. Is this, in fact, true?

Ra: I am Ra. Yes. You will notice the many inborn biases which hint to the possibility of one path's being more efficient than the other. This was the design of the Logos.

Questioner: Then what you are saying is that once the path is recognized, either the positive or the negative polarized entity can find hints along his path as to the efficiency of that path. Is this correct?

Ra: I am Ra. That which you say is correct upon its own merits, but is not a repetition of our statement. Our suggestion was that within the experiential nexus of each entity within its second-density environment and within the roots of mind there were placed biases indicating to the watchful eye the more efficient of the two paths. Let us say, for want of a more precise adjective, that this Logos has a bias towards kindness.

Questioner: Then you say that the more efficient of the two paths was suggested in a subliminal way to second density to be the service-to-others path. Am I correct?

Ra: I am Ra. We did not state which was the more efficient path. However, you are correct in your assumption, as you are aware from having examined each path in some detail in previous querying.

Questioner: Could this be the reason for the greater positive harvest? I suspect that it isn't, but would there be Logoi that have greater negative percentage harvests because of this type of biasing?

Ra: I am Ra. No. There have been Logoi with greater percentages of negative harvests. However, the biasing mechanisms cannot change the requirements for achieving harvestability either in the positive or in the negative sense. There are Logoi which have offered a neutral background against which to polarize. This Logos chose not to do so but instead to allow more of the love and light of the infinite Creator to be both inwardly and outwardly visible and available to the sensations and conceptualizations of mind/body/spirit complexes undergoing Its care in experimenting.

Questioner: Were there any other circumstances, biases, consequences, or plans set up by the Logos

other than those we have discussed for the evolution of Its parts through the densities?

Ra: I am Ra. Yes.

Questioner: What were these?

Ra: I am Ra. One more; that is, the permeability of the densities so that there may be communication from density to density and from plane to plane or sub-density to sub-density.

Questioner: Then as I see the plan for the evolution by this Logos it was planned to create as vivid an experience as possible but also one which was somewhat informed with respect to the infinite Creator and able to accelerate the progress as a function of will because of the permeability of densities. Have I covered accurately the general plan of this Logos with respect to Its evolution?

Ra: I am Ra. Excepting the actions of the unmanifested self and the actions of self with other-self, you have been reasonably thorough.

Questioner: Then, is the major mechanism forming the ways and very essence of the experience that we presently experience here the archetypical mind and the archetypes?

Ra: I am Ra. These resources are a part of that which you refer to.

Questioner: What I am really asking is what percentage of a part, roughly, are these responsible for?

Ra: I am Ra. We ask once again that you consider that the archetypical mind is a part of the deep mind. There are several portions to this mind. The mind may serve as a resource. To call the archetypical mind the foundation of experience is to oversimplify the activities of the mind/body/spirit complex. To work with your query as to percentages is, therefore, enough misleading in any form of direct answer that we would ask that you requestion.

Questioner: That's OK. I don't think that was too good a question anyway.

When Ra initially planned for helping the Egyptians with their evolution, what was the primary concept, and also secondary and tertiary if you can name those, that Ra wished to impart to the Egyptians? In other words, what was Ra's training plan or schedule for making the Egyptians aware of what was necessary for their evolution?

Ra: I am Ra. We came to your peoples to enunciate the Law of One. We wished to impress upon those who wished to learn of unity that in unity all paradoxes are resolved; all that is broken is healed; all that is forgotten is brought to light. We had no teaching plan, as you have called it, in that our intention when we walked among your peoples was to manifest that which was requested by those learn/teachers to which we had come.

We are aware that this particular line of querying; that is, the nature and architecture of the archetypical mind, has caused the questioner to attempt, to its own mind unsuccessfully, to determine the relative importance of these concepts. We cannot learn/teach for any, nor would we take this opportunity from the questioner. However, we shall comment.

The adept has already worked much, not only within the red, orange, yellow, and green energy centers but also in the opening of blue and indigo. Up through this point the archetypes function as the great base or plinth of a builded structure or statue keeping the mind complex viable, level, and available as a resource whenever it may be evoked. There is a point at which the adept takes up its work. This is the point at which a clear and conscious consideration of the archetypical mind is useful.

Questioner: I have an observation on Archetype Number One made by (*name*) and I request comment on it by Ra. I will read it, "The Matrix of the Mind is the conscious mind and is sustained by the power of the spirit as symbolized by the star which flows to it through the subconscious mind. It contains the will which is signified by the scepter of power in the Magician's hand. All of creation is made through the power of the will directed by the conscious mind of the Magician, and the bird in the cage represents the illusion in which the self seems trapped. The Magician represents maleness or the radiance of being manifested as the creation through which each entity moves."

Ra: I am Ra. As this instrument is becoming somewhat weary we shall not begin this considerable discussion. We would request that this series of observations be repeated at the outset of the next working. We would suggest that each concept be discussed separately or, if appropriate, a pair of concepts be related one to the other within the concept complex. This is slow work but shall make

the eventual building of the concept complexes more smoothly accomplished.

Were we to have answered the observations as read by you at this space/time, as much space/time would have been given to the untangling of various concepts as to the building up of what were very thoughtful perceptions.

May we ask if there are any brief queries at this time?

Questioner: Is there anything that we can do to make the instrument more comfortable or to improve the contact?

Ra: I am Ra. It is well that the appliances for the arms were placed upon the instrument. We ask that continued vigilance be accorded these distortions which are, if anything, more distorted towards disease than at our previous cautionary statement.

All is well, my friends, You are conscientious and faithful in your alignments. We appreciate your fastidiousness.

I am Ra. I leave you now, rejoicing merrily in the love and the light of the one infinite Creator. Go forth, then, rejoicing in the power and in the peace of the one infinite Creator. Adonai. ❀
