ABOUT THE CONTENTS OF THIS TRANSCRIPT: This telepathic channeling has been taken from transcriptions of the weekly study and meditation meetings of the Rock Creek Research & Development Laboratories and L/L Research. It is offered in the hope that it may be useful to you. As the Confederation entities always make a point of saying, please use your discrimination and judgment in assessing this material. If something rings true to you, fine. If something does not resonate, please leave it behind, for neither we nor those of the Confederation would wish to be a stumbling block for any.

## THE LAW OF ONE, BOOK III, SESSION 51 MAY 13, 1981

**Ra:** I am Ra. I greet you in the love and in the light of the one infinite Creator. We communicate now.

**Questioner:** As we begin Book Three of *The Law of One* there are a couple of questions of fairly non-transient importance that I have and one that I consider to be of a transient nature that I feel obligated to ask.

The first is clearing up the final point about harvest. I was wondering if there is a supervision over the harvest and if so, why this supervision is necessary and how it works since an entity's harvestability is determined by the violet ray? Is it necessary for entities to supervise the harvest, or is it automatic?

**Ra:** I am Ra. In time of harvest there are always harvesters. The fruit is formed as it will be, but there is some supervision necessary to ensure that this bounty is placed as it should be without the bruise or the blemish.

There are those of three levels watching over harvest.

The first level is planetary and that which may be called angelic. This type of guardian includes the mind/body/spirit complex totality or higher self of an entity and those inner plane entities which have been attracted to this entity through its inner seeking.

The second class of those who ward this process are those of the Confederation who have the honor/duty of standing in the small places at the edge of the steps of light/love so that those entities being harvested will not, no matter how confused or

unable to make contact with their higher self, stumble and fall away for any reason other than the strength of the light. These Confederation entities catch those who stumble and set them aright so that they may continue into the light.

The third group watching over this process is that group you call the Guardians. This group is from the octave above our own and serves in this manner as light bringers. These Guardians provide the precise emissions of light/love in exquisitely fastidious disseminations of discrimination so that the precise light/love vibration of each entity may be ascertained.

Thus the harvest is automatic in that those harvested will respond according to that which is unchangeable during harvest. That is the violet ray emanation. However, these helpers are around to ensure a proper harvesting so that each entity may have the fullest opportunity to express its violet ray selfhood.

**Questioner:** This next question I feel to be a transient type of question; however, it has been asked me by one whom I have communicated with who has been involved intensely in the UFO portion of the phenomenon. If you deem it too transient or unimportant we'll skip it, but I have been asked how it is possible for the craft of the fourth-density to get here since it seems that as you approach the velocity of light the mass approaches infinity. My question would be why craft would be necessary at all?

**Ra:** I am Ra. You have asked several questions. We shall respond in turn.

Firstly, we agree that this material is transient.

Secondly, those for the most part coming from distant points, as you term them, do not need craft as you know them. The query itself requires understanding which you do not possess. We shall attempt to state what may be stated.

Firstly, there are a few third-density entities who have learned how to use craft to travel between star systems while experiencing the limitations you now understand. However, such entities have learned to use hydrogen in a way different from your understanding now. These entities still take quite long durations of time, as you measure it, to move about. However, these entities are able to use hypothermia to slow the physical and mental complex processes in order to withstand the duration of flight. Those such as are from Sirius are of this type. There are two other types.

One is the type which, coming from fourth, fifth, or sixth density in your own galaxy, has access to a type of energy system which uses the speed of light as a slingshot and thus arrives where it wishes without any perceptible time elapsed in your view.

The other type of experience is that of fourth, fifth, and sixth densities of other galaxies and some within your own galaxy which have learned the necessary disciplines of personality to view the universe as one being and, therefore, are able to proceed from locus to locus by thought alone, materializing the necessary craft, if you will, to enclose the light body of the entity.

**Questioner:** I assume that that latter type is the type we experience with the landings of the Orion group. Is this correct?

**Ra:** I am Ra. The Orion group is mixed between the penultimate and the latter groups.

**Questioner:** Why is a vehicle necessary for this transition? When you, as Ra, went to Egypt earlier you used bell-shaped craft, but you did this by thought. Can you tell me why you used a vehicle rather than just materializing the body?

**Ra:** I am Ra. The vehicle or craft is that thought-form upon which our concentration may function as motivator. We would not choose to use our

mind/body/spirit complexes as the focus for such a working.

**Questioner:** Thank you. It seems to me, and you can tell me where I am going wrong with this statement, that we have seven bodies each corresponding to one of the seven colors of the spectrum and that energy that creates these seven bodies is a universal type of energy that streams into our planetary environment and comes in through the seven energy centers that we have called chakras to develop and perfect these bodies. Each of these bodies is somehow related to the mental configuration that we have and the perfection of these bodies and the total in-streaming of this energy is a function of this mental configuration, and through this mental configuration we may block, to some extent, the in-streamings of energy that created these seven bodies. Could you comment on where I am wrong and correct that which I have stated?

**Ra:** I am Ra. Your statement is substantially correct. To use the term “mental configuration” is to oversimplify the manners of blockage of in-streaming which occur in your density. The mind complex has a relationship to the spirit and body complexes which is not fixed. Thus blockages may occur betwixt spirit and mind, or body and mind, upon many different levels. We reiterate that each energy center has seven sub-colors, let us say, for convenience. Thus spiritual/mental blockages combined with mental/bodily blockages may affect each of the energy centers in several differing ways. Thus you may see the subtle nature of the balancing and evolutionary process.

**Questioner:** I am unsure as to whether this will provide an avenue of questioning that will be fruitful, but I will ask this question since it seems to me that there is a connection here.

On the back of the book, *Secrets of the Great Pyramid*, there are several reproductions of Egyptian drawings or works, some showing birds flying over horizontal entities. Could you tell me what this is and if it has any relationship to Ra?

**Ra:** I am Ra. These drawings of which you speak are some of many which distort the teaching of our perception of death as the gateway to further experience. The distortions concern those considerations of specific nature as to processes of the so-called “dead” mind/body/spirit complex. This may be termed, in your philosophy, the distortion of

Gnosticism: that is, the belief that one may achieve knowledge and a proper position by means of carefully perceived and accentuated movements, concepts, and symbols. In fact, the process of the physical death is as we have described before: one in which there is aid available and the only need at death is the releasing of that entity from its body by those around it and the praising of the process by those who grieve. By these means may the mind/body/spirit which has experienced physical death be aided, not by the various perceptions of careful and repeated rituals.

**Questioner:** You spoke at an earlier time of rotational speeds of energy centers. Am I correct in assuming that this is a function of the blockage of the energy center so that when it is less blocked, the speed of rotation is higher and the energy instreaming is greater?

**Ra:** I am Ra. You are partially correct. In the first three energy centers a full unblocking of this energy will create speeds of rotation. As the entity develops the higher energy centers, however, these centers will then begin to express their nature by forming crystal structures. This is the higher or more balanced form of activation of energy centers as the space/time nature of this energy is transmuted to the time/space nature of regularization and balance.

**Questioner:** What do you mean by crystal structures?

**Ra:** I am Ra. Each of the energy centers of the physical complex may be seen to have a distinctive crystalline structure in the more developed entity. Each will be somewhat different just as in your world no two snowflakes are alike. However, each is regular. The red energy center often is in the shape of the spoked wheel. The orange energy center in the flower shape containing three petals.

The yellow center again in a rounded shape, many faceted, as a star.

The green energy center sometimes called the lotus-shape, the number of points of crystalline structure dependent upon the strength of this center.

The blue energy center capable of having perhaps one hundred facets and capable of great flashing brilliance.

The indigo center a more quiet center which has the basic triangular or three-petaled shape in many,

although some adepts who have balanced the lower energies may create more faceted forms.

The violet energy center is the least variable and is sometimes described in your philosophy as thousand-petaled as it is the sum of the mind/body/spirit complex distortion totality.

**Questioner:** Right now I feel a feeling at the indigo center. If this center were totally activated and not blocked at all, would I then feel nothing there?

**Ra:** I am Ra. This query, if answered, would infringe upon the Law of Confusion.

**Questioner:** Immediately after the death of the physical body you have stated that the primary activated body is the indigo, and you stated that it is the form-maker. Why is this so?

**Ra:** I am Ra. This will be the last full query of this session of working.

The indigo body may be seen to be an analog for intelligent energy. It is, in microcosm, the Logos. The intelligent energy of the mind/body/spirit complex totality draws its existence from intelligent infinity or the Creator. This Creator is to be understood, both in macrocosm and microcosm, to have, as we have said, two natures: the unpotentiated infinity which is intelligent; this is all that there is.

Free will has potentiated, both the Creator of us all and our selves as co-Creators with intelligent infinity which has will. This will may be drawn upon by the indigo or form-making body and its wisdom used to then choose the appropriate locus and type of experience which this co-Creator or sub-sub-Logos you call so carelessly a person will take.

I am Ra. This is the time for any brief queries.

**Questioner:** Is there anything that we can do to make the instrument more comfortable or to improve the contact?

**Ra:** I am Ra. All is well. You are conscientious. I leave you now, my brothers, in the love and in the light of the one infinite Creator. Go forth, then, rejoicing in the power and the peace of the one infinite Creator. Adonai. ♀
